

Frozen Sun WINTER RADIANCE

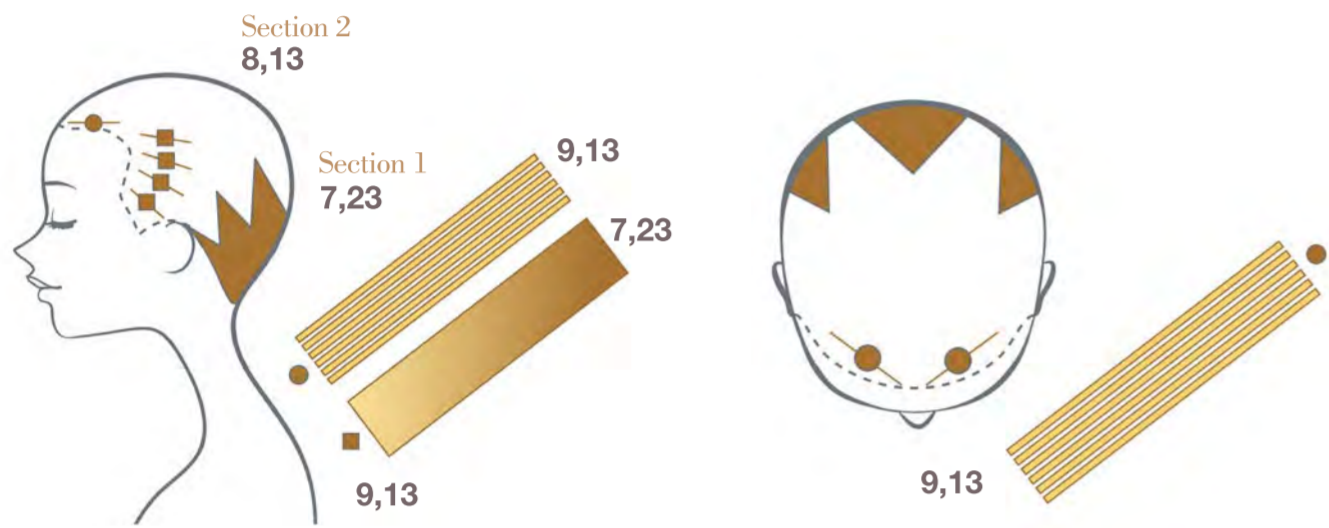

LIGHT BASE TECHNIQUE

PREPARATION

MAJIREL 7,23 / 8,13 / 9,13

L'ORÉAL PROFESSIONNEL
CREAM OXYDANT 20 / 30 / 40 VOL

EASI-MECHE® FOIL / EASI MECHE ULTRA

TECHNIQUE

SECTION 1:

Apply **7,23** from roots to ends inside the zig-zag section at the nape.

SECTION 2:

Separate 5 slices (½ cm thick) on each side of the head. For each slice, apply **7,23** at roots/top half of the slice and then apply **9,13** at the ends/bottom half of the slice.

TIP: Use equivalent shades or similar beige reflects in LUOCOLOR or INOA for an alternative colour result.

Then take a brush or your gloved finger and smudge the two sections together, blurring the line, in order to create the “ombré” effect. Isolate each “ombré” slice.

At the front hairline isolate 2 slices (½ cm thick), weave out half of the hair and apply **9,13** from roots to ends. Isolate the highlights.

Apply **8,13** to the rest of the hair.
